INDUSTRY CLUSTER

AEROSPACE LEADER

Of the world's current embedded general aviation fleet, 70% was produced in Kansas. Kansas employs more than 34,000 people in aerospace. With more than 450 aviation industry suppliers and service providers, Kansas has a highly-skilled workforce.

MORE BUYING POWER

LOW COST OF LIVING

The cost of living in Kansas is 11% below the national average, ranking our state in the top 10 for lowest cost of living in the U.S.

CENTRAL LOCATION

LOGISTICS HUB

Kansas is located at the intersection of three of the nation's largest interstates I-70, I-35 and I-29. This network means that 85% of the U.S. population can be reached in two days or less from Kansas.

WIND ENERGY LEADER

RENEWABLE ENERGY

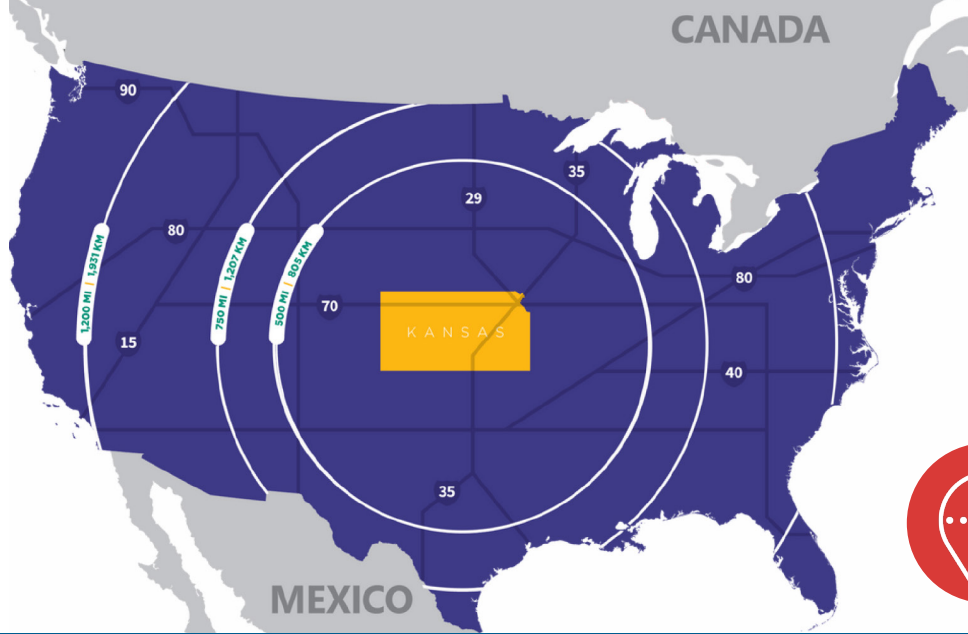

With an ever increasing percentage of the state's energy coming from renewable sources, Kansas offers an immediate advantage to companies committed to powering their operations with 100% renewable energy.

BUILDING THE FUTURE

ADVANCED MANUFACTURING

Advanced manufacturing, including automotive manufacturing and composites, is led by aviation and the GM plant that has been operating in Kansas for more than six decades, along with a number of automotive suppliers. We are poised to support this sector as it transitions to new technology in the electric vehicle supply chain.

THE MIDDLE OF THE HEARTLAND

INTERNATIONAL FLAVOR

Nearly 12% of Kansans over the age of five speak a language other than English. Kansas is above average in comparison to other states in the region. The Wichita public school district is home to students from 97 countries, and there are 105 different languages and dialects spoken.

KANSAS ADVANTAGES

- 48% fewer restrictive regulations compared to the U.S. average
- 17% increase in Kansas' FDI employment from 2017 to 2022.
